Database Searches For Animal Protocols

WRAIR

Type	Alternatives to Painful Procedures (required by AWA)	Duplication of Effort (required by AWA)	General Background Information
BRD Search (Biomedical Research Database) **(Mandatory)**	N/A	**Mandatory** Includes only one Fiscal Year of Data	N/A
DTIC Search	N/A	**Very Useful** Includes much more DoD work than shown in BRD Displays both technical reports (completed work) and Work Units (may be in progress)	N/A
Dialog Search	AGRICOLA BIOSIS CAB Abstracts CAB Health	**Mandatory** ****Use either FEDRIP or CRISP**** <u>FEDRIP</u> (Federal Research in Progress) <u>NTIS</u> (National technical Information service)	Medline EMBase SciSearch

Prepared by Al Reynolds, reference Librarian Gorgas Memorial Library

Generally there will be <u>three</u> sets of searches for each request

Additional Option: CRISP
(Computer Retrieval Information of Scientific Projects)
This database includes NIH research projects. It is hosted on a different computer and requires a separate search

CRISP may be searched as an alternative to the FEDRIP database, normally a part of Dialog search. A separate CRISP search is unnecessary.
